## PASSIONS

**Fashion**  
I have a strong interest for creative worlds and brand identities.

**Photography**  
Owner of a few analog and digital cameras that I like to take with me wherever I can.

**Softwares**  
I'm always looking for new tools to express my ideas.

**Sport**  
A healthy body leads to an healthy mind.

**Documentaries**  
I love learning about the world around me, from politics to science or history.

## DESIGN RESEARCH | PRODUCT | 3D ART

Innovative, enthusiastic and proactive, I like to push the boundaries of what is possible to take a project to a next level. I am always eager to learn something new and like to see challenges as an opportunity to grow.

## PROFESSIONAL EXPERIENCES

**Byborre** Amsterdam, Netherlands.  
*December 2021*

- Collaboration with the knitting company for one of my graduation projects.

**VanPlestik - Art Direction Freelance** Amsterdam, Netherlands.  
*Mai 2021 - June 2021*

- In charge of a project requested by the municipality of Amsterdam.
- Production of the twelve 3D printed art works using recycled plastic.
- Client presentations and visualizations.
- New colour production process developed by experimentation.
- Design of color palettes and choice of materials to fit the urban landscape.
- 3D modeling of shapes (Rhino) to be attached to public benches.

**VanPlestik - Internship** Amsterdam, Netherlands.  
*September 2020 - February 2021*

- Prototyping / Production / Sampling / Printing / Innovation research.
- 3 personal projects, from concept to functional product.
- 3D modelling and product visualisation (Rhino and Blender).
- Studio identity research. Design of a portfolio to present to clients.
- Design of plastic samples to showcase 3D printing capabilities to new clients.
- Design of the "Cumulus" vase packaging that creates an unboxing experience.
- Design and prototype of a new air cooling system for the printers.

**Abercrombie & Fitch** Bruxelles, Belgium.
